

EC13: A Week at the Beach

Expo marks the 30th anniversary of CPESC

Members of the International Erosion Control Assn. (IECA) can look forward to fun in the sun at the Town and Country Resort and Convention Center in San Diego at IECA's annual expo, Environmental Connection 2013 (EC13).

Attendees can choose from full- and half-day training courses, topic-focused technical sessions and field tours at the largest expo for the erosion, sediment control and storm water industry.

Education, Exhibition & Entertainment

EC13 will highlight four educational tracks: Erosion and Sediment Control; Storm Water Management; Surface Water Restoration; and MS4 Management.

Visitors can view new technologies in the expo hall, open from 11:45 a.m. to 6 p.m. on Feb. 12 and from 9 a.m. to 2 p.m. on Feb. 13.

This year, IECA hosts an event honoring the 30th anniversary of Certified Professional in Erosion and Sediment Control (CPESC). The beach bash on Feb. 13 will include gourmet food, drinks, entertainment and cash prizes.

For more information on EC13, visit www.ieca.org/conference. **SWS**

Williette Nyanue is assistant editor for *Storm Water Solutions*. Nyanue can be reached at wnyanue@sgcmail.com.

For more information, write in 810 on this issue's reader service form on page 40.

TECHNICAL SESSIONS AT A GLANCE

Attendees will learn about the latest in industry trends and solutions at EC13's technical sessions.

HIGHLIGHTS OF THIS YEAR'S SESSION SCHEDULE INCLUDE:

- The History and Ironies of the Clean Water Act in America. Feb. 11, 2:10 to 3:10 p.m.
- Expert Forum: Everything You Wanted to Know About Storm Water Regulations But Were Afraid to Ask. Feb. 11, 2:10 to 4:20 p.m.
- Construction Site Management for Production Profitability and Compliance. Feb. 12, 8 to 9 a.m.
- Modeling Sediment BMPs in Sensitive Areas. Feb. 12, 11:30 a.m. to 12:30 p.m.
- Combining Engineered and Natural Solutions to Sediment Problems. Feb. 13, 8 to 9 a.m.
- Storm Water Enforcement and Risk Mitigation Trends. Feb. 13, 11:30 a.m. to 12:30 p.m.
