BLENDING INDOOR AND OUTDOOR SPACES AT THE TOUCH OF A BUTTON

Phantom's retractable wall screens are motorized - appearing at the touch of a button and disappearing when you don't need them. Perfect for outdoor spaces, they give you fresh air, shade from the sun, protection from insects, climate control or privacy. They can be surface mounted or recessed into walls, columns and ceiling cavities to blend perfectly with your décor.

Applications

Phantom's motorized screens are custom made and professionally installed to fit a wide variety of large openings including patios, porches, balconies, large picture windows, verandas, lanais, lift and slide door systems & loggias.

Patios

Porches

Balconies

FEATURES & BENEFITS

- Motorized screen - retracts vertically
- Expands your living space
- Maintains your view to the outdoors
- Integrates easily with home automation systems

- Provides climate control
- Weighted slidebar
- Optional sun & wind sensors
- In-wall or hand-held remote controls
- Various mesh, fabric & vinyl options

INSTALLATION OPTIONS

- Surface mount
- Recessed

BUILDING INTEGRATION

We integrate motorized screens into every type of building material including wood, brick, stucco, natural stone and concrete.

Our dual roller application allows you to combine two motorized screens in a single pocket - providing climate control & privacy or solar shading & insect protection.

Recessed in archways

Natural stone and wood

Recessed in columns

Stucco, brick and concrete

CONTROLS AND AUTOMATION

We program your motorized screens to support the way you want your living space to function. Both wall-mounted switches and hand-held remotes are available to lower or retract your screens whenever you choose. As well, some of Phantom's motorized screens come with smart functions such as advanced obstacle detection.

Motorized screens can also be programmed to respond to the outdoor conditions of your home. For example, our sun and wind sensors lower the screens when exposed to direct sun and retract the screen into the protective housings during windy conditions.

They can be easily integrated into most home automation systems, including Lutron®, Crestron® and smartphone devices.

POWERED by
somfy®

WIDER, STRONGER, BIGGER THAN EVER

Phantom's motorized screens are now able to extend a ground breaking 40 feet wide while having the mesh completely retained in the track. This is well over the industry standard of 25 feet and displays beautifully across your home. This screen truly transforms your living space to create an oasis that will surely **WOW** your guests!

Customization

FINISHES

Choose from one of nine standard colors or decorative wood grain finishes.

Standard Colors

Wood Grain

Custom Color

Phantom Screens also offers a custom color matching program to blend our screens with any color scheme.

* Please note that the appearance of the colors illustrated will differ from the actual coated samples or finished articles.

SIZING
